Dear Mr. Kendrick:

As per our telephone conversation of July 7, 1981, you advised us of your company's plans to mine 8,000 tons of tar sands from the existing pits located at the head of Water Canyon below Bruin Point. This material will be crushed in Whitmore Canyon and trucked to Salt Lake City for testing. As the entire operation does not affect public surface or tar sand estates, we do not have jurisdiction over any phase of the operation.

The enclosed map indicates the location of the public estates in T. 14 S., R. 14 E., SLM.

We appreciate your notification of this proposed operation.

Sincerely yours,

Area Manager
